

Raping the souls of babies

The ways of the preachers' of the church of god of Delmarva in 1941 was not faithful to the spirit of god that motivated the people of Delmarva to believe in them.

The preachers' of the church of god of Delmarva used the conflict, tensions and fear doing WWII to rape and to kill the souls of their people and their babies.

They did not devote their energies and resources to the great and respectable tasks of healing their people's war wounds, are of clothing and feeding and housing their needy, of achieving a just life after the war so that their members would enjoy the fruits of being free that their fathers, sons and husband die for.

The world of the church of god of Delmarva in 1940 was design for the security and enjoyment of their preachers. They fright their members by saying the enormous armies of evil would kill their loved ones in WWII if they disobey god's words that they spoke.

Their goal was power and superiority over their members at all costs. The preachers and the church of gods security doing the war was sought by denying it to their own members. The result was tragic for the families of Delmarva.

The worst was if they did not obey and believe the decent people of Delmarva loved one would be killed in the war.

My mother June got a letter from the war department saying my father was missing in action, later she learns he was a POW.

The church of god preacher keeps telling my mother that my father would be killed if she did not submit to gods well and give him her baby girl.

Think about your loved one being a POW and your preacher telling you god wants you to give up your baby to the church or god well let your loved one to be kill in a POW camp

The churches of god preachers were thefts from those who were hunger and not being fed and from those who were cold and were are not being clothed. They used the sweat of its member's laborers and killed the souls and hopes of their children.

Living this way doing WWII is not the best of life; it was a living hell created by war and preachers. The church was shaped by bullying preachers that rape the souls of its members and their babies and today it has expanded to enslave millions of souls worldwide.
